## ERRATA

Paper entitled "Drift Instabilities in Ionospheric Plasma", 9 (No. 8) (1971), pp. 618-25:

The second part of Eq. (13):  $k\alpha^\pm = k_x - \alpha^\pm k_y$  should read as  $k\alpha^\pm = k_x + \alpha^\pm k_y$

Denominator of Eq. (18):  $\beta_k - i(\beta_1 C_2 + \beta_2 k_{\parallel}^2)$  should read as  $\beta_k a - i(\beta_1 C_2 + \beta_2 k_{\parallel}^2)$

Numerator of Eq. (23):  $A\beta_1 k_y^2 + L_1 L_2 a^2 + \beta\alpha_1 (L_1 E_{0x} - \beta_1 E_{0y}) a$  should read as

$$A\beta_1 k_y^2 + L_1 L_2 a^2 + \beta\alpha_1 (L_1 E_{0x} - \beta_1 E_{0y}) a$$

Paper entitled "Thermoluminescence Study of CaS : Zr(Na<sub>2</sub>SO<sub>4</sub>, NaF) Phosphors", 9 (No. 9) (1971), p. 739, Fig. 1: The amount of Na<sub>2</sub>SO<sub>4</sub> for sample VE 4 is 0.75 g and not 0.15 g as given.

Electromagnetic waves: Motion of a charged particle, resonating with a transverse electromagnetic wave propagating along an ambient non-uniform magnetic field ...	391
Study of periodically varying plasma medium: Modulation of electromagnetic waves & measurement of parameters ...	281
Electron content: Changes in electron content during the 25-26 May 1967 magnetic storm event ...	729
Geomagnetic control over the latitude variation of total electron content to equatorial region	
Solar cycle variation of electron content over Delhi ...	237
Electron density irregularities: Vertical velocity in the E-region of the ionosphere & formation of electron density irregularities ...	
Electron gas: Photo-electron energy distribution & heat input to the electron gas in the ionosphere ...	50
Electron, harmonically bound: Second harmonic generation in scattering of partially coherent radiation by harmonically bound electron ...	
Electron interaction: Electron-phonon interaction & chemisorption energy in case of adsorbed atoms	824
Electron micrographs: Three-dimensional reconstruction from radiographs & electron micrographs: Part III — Description & application of the convolution method ...	512
Electron-phonon interaction & chemisorption energy in case of adsorbed atoms ...	
Electron trajectories: Fringing field effects on electron trajectories for a 60° double focusing sector magnet ...	509
Electronic absorption spectra of 2,4- & 2,5-dichlorophenols in vapour phase ...	
Electronic absorption spectrum of 2-fluoro-4-chlorotoluene in vapour phase ...	568
Electronic absorption spectrum & U-O bond distance of zinc uranyl acetate ...	
Electronic collapse in rare earth monochalcogenides at high pressure ...	1076
Electronic collision frequency: Variation of electronic collision frequency in the F-region ...	
Electronic density of states: Effect of core electrons on the electronic density of states in normal metals	483
Electronic emission spectra of isomeric difluorobenzenes ...	
Electronic spectra: Effect of successive substitutions at the $\alpha$ -position on the electronic spectrum of toluene ...	795
Electronic spectra of aniline-d <sub>7</sub> ...	
Electronic spectrum of <i>m</i> -chlorotoluene in vapour phase ...	336
Electronic transition moment: On the variation of electronic transition moment with the internuclear separation in SiCl & SnF molecules ...	
Electrons: Compton scattering by K-shell electrons	700
Effect of core electrons on the electronic density of states in normal metals ...	
Energy distribution of electrons in the negative glow of a glow discharge & in plane-parallel hollow-cathode discharge ...	324
Heating of electrons by oscillating electric field in the presence of steady magnetic field ...	
Periodic energization of electrons due to rf waves propagating through the magnetosphere ...	290
Elements: Grüneisen constant of some elements ...	
Emission characteristics of SrS: Bi & CaS: Bi phosphors with varying amounts of flux ...	824
Emission spectra: Electronic emission spectra of isomeric difluorobenzenes ...	
Emission spectra of isomeric fluorostyrenes ...	249
Luminescence emission spectra of SrS(Zr), SrS(Cu), CaS(Cu), SrS(Cu, Zr) & CaS(Cu, Zr) phosphors ...	
Sensitized emission spectra of 1-amino,4-hydroxy-anthraquinone & 1-methylaminoanthraquinone	253
Thermally excited emission spectrum of gaseous boron monosulphide ...	
Emissions, multiple: A mechanism for multiple emissions in the whistler mode ...	416
Energization, periodic: Periodic energization of electrons due to rf waves propagating through the magnetosphere ...	
Energy band model: Metal-insulator transition in narrow energy band model ...	50
Energy distribution of electrons in the negative glow of a glow discharge & in plane-parallel hollow-cathode discharge ...	
Experimental determination of energy distribution of electrons in a gas discharge plasma ...	281
Eosin: Exciton bands & aggregate emission in xanthene dyes: Fluorescein, eosin & erythrosin ...	
Epitaxial nickel films: Electrical resistivity of epitaxial nickel films ...	229
Equatorial F-region: Electrojet effects on the equatorial F-region during magnetically quiet & disturbed days ...	
Equatorial F2-layer anomaly & the electrojet ...	531
Equatorial region: Geomagnetic control over the latitude variation of total electron content in equatorial region ...	
Equivalent pressure: Concept of equivalent pressure in discharge plasma in $E \times H$ fields ...	512
Erbium: Visible absorption spectrum of erbium in calcium tungstate ...	
Erythrosin: Exciton bands & aggregate emission in xanthene dyes: Fluorescein, eosin & erythrosin ...	824
Esters of salicylic acid: Temperature variation of ultrasonic velocity in some esters of salicylic acid ...	
Ethyl alcohol: Dielectric properties of nitrates of some transition group elements dissolved in ethyl alcohol ...	483
N-Ethylanilines: Vibrational spectra of N-methyl-, N-ethyl-, N,N-dimethyl- & N,N-diethylanilines ...	
Ethylene: Empirical force field for ethylene: Part III — Application to some $CH_3X$ ( $X$ = halogen, CN & CCH) type molecules ...	795
Europic ion: Decay times, intensities and their temperature variation of luminescence of aqueous & deuterated solutions of europic ion ...	
Excitation cross-sections of several states of helium	324
Exciton bands aggregate emission in xanthene dyes: Fluorescein, eosin & erythrosin ...	
Explorer 37: Studies on solar X-ray flares recorded by SOLRAD-9 on Explorer 37 satellite ...	290
Eye movement monitor: Development of an eye movement stimulator & monitor ...	
Eye movement stimulator: Development of an eye movement stimulator & monitor ...	249
F-layer: Emission of 5577 Å radiations in the night airglow from the F-layer at Poona ...	
F2-layer: Equatorial F2-layer anomaly & the electrojet ...	253
Low latitude dynamics of 6300 Å night-glow emission & F <sub>2</sub> -layer on 31 Jan.-1 Feb. 1968	
F2-layer disturbances: Ionospheric F2-layer disturbances at low latitudes: A statistical study ...	631
F-region: Electrojet effects on the equatorial F-region during magnetically quiet & disturbed days	
Variation of electronic collision frequency in the F-region ...	537
F-region irregularities: Study of drift & anisotropy of F-region irregularities at Waltair during IQSY	
Fcc metals: Angular forces & lattice dynamics of fcc metals ...	519
FeCl: Complex band spectrum of FeCl in the ultraviolet region ...	
Fading: Theoretical analysis of fading-out of radio signals in a spherically stratified atmosphere ...	1037
Fast convergence: A method of fast convergence in $\omega$ -technique LCAO-MO calculations ...	
Ferrites: Elastic moduli of some polycrystalline ferrites ...	102
Ferroelectric phase transitions: Raman spectroscopy of phonon instability in first order ferroelectric phase transitions ...	
Ferromagnetic resonance: Effect of inhomogeneous demagnetization field in ferromagnetic resonance	473

Influence of magnetospheric heat flux on plasma temperatures & composition in the topside ionosphere	501		
Trace variable forces in alkali halides	1042		
Transfer power characteristic of junction field effect transistor at liquid air temperature	760		
Transistor, junction field effect: Transfer power characteristic of a junction field effect transistor at liquid air temperature	760		
Transition group elements: Dielectric properties of nitrates of some transition group elements dissolved in ethyl alcohol	795		
Transition moment: Dependence of transition moment on internuclear separation in the <i>A</i> - <i>X</i> system of the BiCl molecule	487		
Trapping regions for cosmic ray trajectories in the magnetosphere	1013		
		<b>U</b> -O bond distance: Electronic absorption spectrum & U-O bond distance of zinc uranyl acetate	459
		Ultrasonic absorption: Temperature dependence of ultrasonic absorption in VOSO <sub>4</sub>	314
		Ultrasonic absorption in D <sub>2</sub> O in the presence of univalent ions	312
		Ultrasonic dispersion in 1-chloropropane vapour	62
		Ultrasonic interferometer: Simplified method for measuring velocities with the ultrasonic interferometer	261
		Ultrasonic velocity: New method of determining temperature coefficients of ultrasonic velocity in liquids	400
		Simplified method for measuring velocities with the ultrasonic interferometer	261
		Temperature variation of ultrasonic velocity in liquid mixtures	800
		Temperature variation of ultrasonic velocity in some esters of salicylic acid	483
		Temperature variation of ultrasonic velocity & related thermodynamic parameters in liquid propane & <i>n</i> -butane	169
		Ultrasonic velocity studies in cholesteric liquid crystals	725
		Ultraviolet absorption spectra: Near ultraviolet absorption & infrared spectra of <i>p</i> -fluorobenzonitrile	109
		Near ultraviolet absorption spectrum of chlorobenzene- <i>D</i> <sub>5</sub>	383
		Near ultraviolet absorption spectrum of 2,6-di-chloroaniline	138
		Near ultraviolet absorption spectrum of 2,3-di-chlorotoluene	268
		Ultraviolet region: Complex band system of FeCl in the ultraviolet region	102
		UMAKANTHA, N. <i>see</i> CHIKKUR, G. C.	404
		Univalent ions: Ultrasonic absorption in D <sub>2</sub> O in the presence of univalent ions	312
		UPADHYA, K. N. <i>see</i> PANDEY, R. K.	36
		<i>see</i> RAM, R. S.	403
		<i>see</i> SHUKLA, J. V.	815
		Uranium-activated alkali fluoride phosphors: Temperature dependence of band-width & band-shift in uranium-activated alkali fluoride phosphors	319
		<b>V</b> - <i>I</i> characteristics of Ge & Si using broad pressure contacts & a new method of determining the <i>n</i> - or <i>p</i> -type nature of silicon	490
		(Vhf) satellite transmissions: High latitude scintillation effects on very high frequency (vhf) & S-band satellite transmissions	590
		Vlf waves: Ion & temperature effect on the absorption of vlf & elf waves in the whistler mode propagation during solar minimum	47
